Preschool for All is a movement years in the making. People from across Multnomah County have come together to form a plan for the best preschool program this country has ever seen. Because every child in our community deserves a high-quality preschool education.

Preschool for All reimagines our early learning system. Laying the foundations for a more equitable system that serves all children. Not only so it provides a high-quality education to children, but also pays preschool teachers and workers the wages they deserve.

**Preschool for All Plan**

1. Prioritizes children with the least access to preschool today.
2. Guarantees a living wage for preschool teachers and staff.
3. Offers a variety of options to meet families’ needs, including before and aftercare.
4. Developed with the community, including families, providers, and leaders in early childhood education.
5. Funded through a sustainable, reasonable tax on higher-income earners that exempts about 92% of Multnomah County taxpayers.

"Together, we are putting our values into action and improving the lives of children, families, and our entire community."

- Commissioner Jessica Vega Pederson

Universal, tuition-free preschool for ALL of Multnomah County’s 3- and 4-year olds.

**YES on Measure 26-214**
